Scope and Coverage

Time-tested and generations approved, the Farmers' Almanac is a compendium of knowledge on weather, gardening, cooking, home remedies, managing your household, preserving the earth, and more. Anyone can give advice but Farmers' Almanac goes beyond today's experts and enlightens users with generations of perception, experience, and common sense. Published every year since 1818, the retail edition of the Farmers' Almanac not only provides amazingly accurate long-

range weather predictions (for both the US and Canada), but also articles, calendars, and information on everything from the best days to garden, fish and take vacations, to recipes for healthy homemade dishes, and ways to use natural remedies to cure a cold. Everything Farmers' Almanac represents can also be found online, bringing the wisdom of the ages into the digital age. It covers Weathers, Astronomy, Gardening, Calendar, Food and Advice.

### *Kind of Information*

The category that are explained in the scope, are comes with several sub-categories. After selecting a particular one from a particular category, one is enriched with highly valuable information about that topic. As for example, if the topic **Weather** is selected, it is seen that it comes with sub-topic like 2018 Winter Weather Outlook, Weather Main Page, Long Range Weather Forecast and Historical Weather. All these sub-divisions hold valuables information.

The screenshot displays the Farmers' Almanac Weather website. At the top, there are navigation links for "Existing Member Login" and "Not a Member? Sign up here", along with a search bar. The main header reads "FARMERS' ALMANAC WEATHER" and describes it as "The most trusted source for all things weather-related for 200 years." The featured article is titled "Fata Morgana: The Strange Mirages at Sea" by Amber Kanuckel, dated Monday, September 11th, 2017. The article includes a photograph of a large, multi-masted sailing ship appearing to float in the air over the ocean. The text explains that unlike desert mirages, Fata Morgana can make objects like ships and cities appear to be floating in the air. A "Read More" link is provided below the text. To the right of the article is a newsletter sign-up box for "Farmers' Almanac FREE Email Newsletter" with an "Enter Email" field and a "Sign Me Up!" button. Below the main article, there is a "Recent Weather Articles" section with two thumbnail images: one of a lighthouse on a rocky shore and another of a damaged building. At the bottom right, there is a green advertisement for website hosting, stating "Website hosting that never quits. Starting at Rs 99\*/mo".

As for example.... Weather Main Page is selected, here. Each title under this topic gives valuable information. One can read the full information after clicking on the read more option.
