Scope and Coverage

BookData Online is one of a suite of services from Nielsen Book developed to provide the most user-friendly search, discovery and transaction service for booksellers, libraries and publishers worldwide. The Nielsen Book database now holds over 10 million title records (with their bibliographic records) and its sophisticated search and discovery tools allow the customers to make informed buying decisions. It includes titles published or distributed in the UK, Ireland, Europe, US, Australia, New Zealand and South Africa as well as data collected from a further 70 countries. The database contains over 60,000 supplier's information around the globe.

Kind of Information

Each record includes title of the document with price and availability, short and long descriptions, tables of contents, reviews, author biographies, jacket/cover image, publisher and distributor details, wholesaler stock identified etc. Here Out of print titles also mentioned. For information one can retrieve their document by clicking on the “Book Search” button on the home page. Then after a particular search a list of books is appeared. Under a particular book, detail bibliographic information such as author(s) name, series, ISBN, publisher etc. available. An example is given below for clear understanding.

ISBN/EAN	Title	Author/Contributor	Imprint	Date	Format	Price	Availability	
<input type="checkbox"/>	9780199315246	Integrative Pain Management	Bonakdar, Robert Alan	Oxford University Press Inc	24 Mar 2016	P	£ 52.00	Available
<input type="checkbox"/>	9781348022640	The Library of Factory Management, Volume 3	A W Shaw Company, Ltd	Palala Press	13 Dec 2015	H	£ 18.95	In stock
<input type="checkbox"/>	9781138980266	Management Accounting Research	Klemstine, Charles F.	Routledge	26 Nov 2015	P	£ 30.00	POD
<input type="checkbox"/>	9783319063041	Environmental Management and Governance	Finkl, Charles W.	Springer International Publishing AG	16 Sep 2014	H	£ 117.00	POD
<input type="checkbox"/>	9780199909100	Consultations in Infectious Disease	Caplivski, Associate Professor Daniel	Not Avail	14 May 2014	EB		Active

Existing users of **BookNet Web** have been provided with a password and user ID, however if you encounter any problems please [contact us](#).

Step 2: user can start their searching either by typing keywords in **Quick Find** box in the top right corner of the screen or in main column.

The screenshot shows the Nielsen BookData Online search interface. At the top, there is a navigation bar with links for 'Logout', 'Home', 'About Us', 'Contact Us', and 'Feedback'. Below this is a 'Quick Find' search bar with a search icon. Underneath the search bar are buttons for 'New Search' and 'Preferences'. The main section is titled 'Product Search' and includes tabs for 'Product Search', 'Bulk Search', and 'Supplier Search'. There are also radio buttons for 'Single Line Summary', 'Multi Line Summary', and 'Full Page View'. A table with two columns, 'Field to search' and 'Terms to search for', is displayed. The 'Field to search' column lists various search criteria like ISBN / EAN, Title, Author/Contributor, Keywords, Auth-Titl Code, BIC Subject, and Keyword. The 'Terms to search for' column contains search terms, with 'library management' entered in the 'Title' row and circled in yellow. At the bottom of the table, there are buttons for 'Browse selected index' and 'Search Now', with the latter highlighted in orange.

After a particular search a long list will appeared which is given above in the “kind of Information” row.

Remarks

Nielsen BookData Online is a professional bibliographic search tool used by booksellers, libraries and publishers worldwide and provides a unique source of timely, accurate and comprehensive information for books and other published media. Its sophisticated search and discovery tools allow the customers to make informed buying decisions.
