Brief History

Julius Springer founded Springer-Verlag in Berlin in 1842 and his son Ferdinand Springer grew it from a small firm of 4 employees into Germany's second largest academic publisher. Springer provides its electronic book and journal content on its SpringerLink site, which launched in 1996.

Scope and Coverage

Springer Link is a database of academic journals and books, focusing on the various disciplines. It covers some major subjects like Architecture & Design, Astronomy , Biomedical Sciences , Business & Management , Chemistry , Computer Science, Earth Sciences & Geography , Economics , Education & Language , Energy, Engineering , Environmental Sciences , Food Science & Nutrition etc. It includes more than 10 million (10,122,327 resources as on 27th Sep 2016) resources.

Kind of Information

This tool provides distribution of content types, distribution of sub-discipline, and distribution of language under a particular topic. e.g.: under the topic ‘chemistry’ distributions are as follows:

- Links to social networking site like Facebook, Twitter etc.
- RSS feed support present.
- Contact and feedback facility availability.

Arrangement Pattern

Name of the disciplines are arranged in alphabetical order.

Under a discipline one can sort their search various content (like book, journal, articles, book series) according Old – New and New – Old publication date wise. e.g.:

Old to New

Book

Die Typentheorie und die Molekularformeln
Eine Übersicht für Studierende der Chemie
Dr. Theod. Petersen (1862) ←

Book

Die Chemie bearbeitet als Bildungsmittel für den Verstand
August Karl von Krönig (1864) ←

Book

Technologie des Anilins
Handbuch der Fabrication des Anilins und der von ihm derivirten Farben
M. Reimann (1866) →

Remarks

It's a wonderful bibliographic tool for students, researchers and teachers in present day context for academic, business and other purposes. It has often played a vital role in redesigning and reorienting university syllabi based on its valuable books.
