New York Public Library

Scope and Coverage

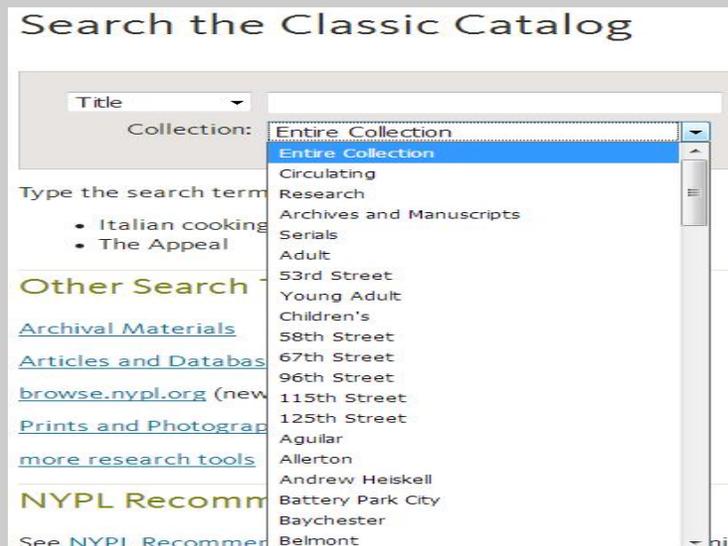

The New York Public Library has 4 research centers, which focus on humanities and social sciences, the performing arts, black history and culture, and business and industry and a network of neighborhood libraries throughout the Bronx, Manhattan, and Staten Island. The Library provides free and open access to its physical and electronic collections and information, as well as to its services for people of all ages, from toddlers to teens and adults. It serves more than 17 million patrons a year and millions more online, the Library holds more than 51 million items, from books, e-books, and DVDs to renowned research collections used by scholars from around the world and also contains collections for blind users. The New York Public Library has more than 6 million items in its circulating collections—from books, e-books, and audio books to music and movies.

Remarks

The New York Public Library became a vital part of American life. According to Tony Marx, the President of The New York Public Library, it has provided essential access to books and information for more than a century. Today, the library is building on that legacy by increasing access to collections physically and online, and by transforming its libraries into proactive centers of education and opportunity for all New Yorkers.
