Kind of Information	The library gives separate search options for its separate type of collections like collection of books, e-books and audio books, e-books for teens, magazines, new books, reference book etc. The following screen shot clearly has shown that:

Two search processes among above are explained here.

Catalog for find books: The following screen shot is an example of simple search process for books and articles from collection in which users just have to put search term for accessing desired documents.

In advanced search option

In advanced search process are provided option to put more than one search terms conjoining by 'and', 'or', 'not' and in parallel they have to choose one particular bibliographic fields for each term.

The search queries can be further re-modified by mentioning format of document, collection type, location, language, range of publication year.

The above two search processes gives list of titles of books, in which all the titles are

hyperlinked with detailed bibliographic information. The catalog search provides users following bibliographic information on a particular title in the list:

Philosophy : the classics / Nigel Warburton. /
Nigel Warburton
Warburton, Nigel, 1962-
Book | Routledge | 2006 | 3rd ed.
Available at Albany - Arbor Hill/West Hill - Adult Nonfiction (100 W) plus 1 more
