Publisher	Calcutta University
Brief History	The University of Calcutta is a public state university located in Kolkata, West Bengal and was established in 24th January, 1857. The library stared as functioning as university library in 1870s. Apart from 39 departmental libraries it has a central library, two campus libraries, and two libraries of the advanced centers spread across the seven campuses. Students of affiliated colleges can also access the central library.

Scope and Coverage	The university library has over 10 million books and more than 200,000 bound journals, proceedings, manuscripts, and patents.
Kind of Information	The online catalog provides option to make basic search, Free-text search as well as Boolean search. Under the heading "Basic search" users can search books from the collection by choosing the fields like Title, Author's surname, Author's surname, Author's forename, Corporate author, Conference/Meeting, Subject heading, Class No., Publisher, Series. In free text search, one can put the title or author's name or subject to access desired book. In Boolean search, one can organize the search by combining 'and', 'or', 'not' operator. The search result comes in the table form with the bibliographic information like Title, Author, Department/Corporate body, Type of material and Location. Further bibliographic information is provided in another webpage which is linked with every title in the search result. After clicking one particular hyperlinked title one can found bibliographic information on that material, these are Author's name, Language of the book, Type of material, Edition, Publisher, Place of Publication, Year of publication, Accession No., Library Location, Class No., Book No., Physical Description of that book, Subject Heading, related Note, Series, Volume / Part, ISBN.
Special Features	University of Calcutta maintains database of back volume of old journals from its deferent departments. The database includes bibliographic information like Title of the journal, Language, Frequency of that journal, Publisher of the journal and Publication Place, ISSN number of that journal, Status, Holdings, and Note.
Arrangement Pattern	The search query produced the search result where all the materials are arranged by the relevancy of the materials to the search query.
