Brief History

The website has started its journey in September 2005. Copyright date is available i.e. 2016.

Scope and Coverage

This is a free, concise and illustrated dictionary on history. This dictionary covers huge number of historical terms with their description, background, etymology, related images and so on. It also covers large size archives on maps which started from ancient time (BC) to today. Maps are also available on different continents. Information about historical places and castles, historical movies videos are included here. Large collection on 'people in history'; 'war, battles and revolutions' are available here. In addition, there are miscellaneous historical information available through various links. Full 24 sitemaps (kind of index) are also available that helps users very much.

Kind of Information

An entry in this dictionary is represented with historical background, description/meaning, audio pronunciation (occasionally), etymology, images/maps (where applicable). An example is given below for clear understanding:

Amphictyony

In ancient Greece, an amphictyony was a coalition of neighboring states formed to defend a shared religious center.

 PRONOUNCE AMPHICTYONY

Such union was the **Delian Amphictyony**, with its center on the island of Delos, and the **Delphic Amphictyony**, with its headquarters in the ancient town of Delphi.

The English word *amphictyony* stems from the Greek word *amphiktiones*, meaning *neighbors*.

Special Features

- ❖ Links to various social networking sites like Facebook, Twitter, Google plus are available.
- ❖ There is a link to “People in History” denoting hyperlinked list of various historical personnels. From the alphabetically arranged list the coloured or black and white images of the persons are found along with their short biographical information. An entry has been cited here for clear understanding:

Jacob Abbott 1803-1879

Mr. Jacob Abbott lived in Maine.

He was a teacher and a diligent writer.

Jacob Abbott wrote many books for young people. He also wrote 22 history books. Among them:

The History of → [Xerxes the Great](#), and the History of → [King Charles the Second of England](#), which you can → [read online](#).

Obviously, Abbott's books were penned in the writing style of his time. And even though it was possible to get away with having a sentence running over half the page back then, Abbott's narrative is easy to follow and enjoyable.

Abbott doesn't ambush you with historical facts. Instead, he equips his readers with background information that prepares them for the person, event, or action that is to follow. Nice job.

- ❖ Link to Wars, Battles, and Revolutions in History are found intertwined with this dictionary where the wars, battles and revolutions are found alphabetically as well as chronologically. Within each entry descriptions are also found with illustrations, maps, hyperlinks to other related events and so on. An example of American Civil War is given through a print screen.

American Civil War 1861-1865

The American Civil War is also called The War Between the States.

**WE'LL DO

- ❖ Famous Speeches are arranged alphabetically according to topics.
- ❖ A list of “All-Time Records in History” is also available here. Some examples are given through print screen:

THE BLOODIEST BATTLE EVER FOUGHT

What was the bloodiest battle ever fought? Opinions differ. Some suggest it was the **Battle of Stalingrad**, which lasted from August 1942 until February 2, 1943. The Germans were defeated. Estimated total losses were 1,900,000 deaths: 1,100,000 Soviets and 800,000 Axis losses (Germans, Romanians, Italians, and Hungarians.)

Against Hitler's orders, German Field Marshal **Friedrich Paulus** surrendered to the Soviet forces with his remaining 91,000 troops. Paulus later testified at the International Military Tribunal at Nurnberg. The Battle of Stalingrad was a turning point in → **WWII**.

THE LARGEST TANK BATTLE IN HISTORY

That was the **Battle of Kursk** (July 5 - August 23, 1943). German troops vs. Soviet troops in → **World War II**. Involved were 6,000 tanks, 2 million troops and 4,000 aircraft. The Germans lost.

HISTORY'S GREATEST MILITARY LEADER

Who was the greatest military leader in history? It depends on whom you ask.

- **Hannibal** thought it was → **Pyrrhus**.
- **Napoleon** thought it was → **Henri de La Tour d'Auvergne**.

HIGHEST SIEGE TOWERS EVER USED IN WAR

According to author **Werner Keller**, it was → **Alexander the Great** who ordered the construction of some very high towers to get over the city walls of **Tyre**.

Keller writes, "A drawbridge on the front of the towers enabled a surprise attack to be made on the enemy's walls. They were the highest siege towers ever used in the history of war. Each of them had twenty stories and the topmost platform
