Brief History

Subject to research

Scope and Coverage

Published by Blockdale, Chemical Industry Digest, is a pioneer in the field of chemical industry. The journal regularly presents features on current developments, state-of-the-art technology, group discussions, corporate profiles, industry scenarios, engineering approaches, new products and processes in production, maintenance, fluid flow, instrumentation, equipment fabrication, energy efficiency and conservation, environment and safety, R&D and many more.

Kind of Information

Chemical Industry Digest provides chemical engineering related articles. In this tool articles are available with its title, author name (posted by) and short description. Also articles are present with a theme photographs. Sometimes link available for full article (in pdf format). Similarly an option “By complete article” available. An example is given below.

Conquer Mount Everest in planning and scheduling <i>Feb 28, 2017</i>	China becomes a global process manufacturing powerhouse amidst increased market volatility <i>Feb 28, 2017</i>
Maintenance coatings requirements for Chemical Industry <i>Feb 28, 2017</i>	Writing a Safety Requirement Specification (SRS) <i>Feb 28, 2017</i>
Colours in our life: From aesthetics to functions <i>Feb 28, 2017</i>	Nylon: Past, Present and Future Perspectives <i>Feb 3, 2017</i>
Cloud Computing Tech <i>Feb 1, 2017</i>	Security of Dual use Chemicals <i>Feb 1, 2017</i>
Incredible Responsible Care®! <i>Feb 1, 2017</i>	3D Engineering and Visualisation for Chemical Plant Engineering & Construction <i>Feb 1, 2017</i>

Nylon: Past, Present and Future Perspectives
Feb 3, 2017

Author Name: Anuj Mittal & Suchetana K Shetty

Polyamides (Nylon) comprise the largest family of engineering plastics (by volume) with a very wide range of applications. The article briefly summarizes the literature with a view to capture past, present and future perspectives of Nylon. Focus on the recent research from academia and industry is also highlighted.

Special Features

- Contact and feedback option available with proper form.
- Links to social networking sites like Facebook, Twitter, Google+ and so on. User can share each article via social networking sites.
- One can subscribe newsletter through proper way.

Arrangement Pattern

The article archives are arranged according to year wise then publication date wise. One can search their information according to their own choice.

Colours in our life: From aesthetics to functions

Published on 2/28/2017

Colours have fascinated human beings from times immemorial. Simply stated they have made our lives colourful in multifarious areas. This article elaborates on...[Continue Reading](#)

Nylon: Past, Present and Future Perspectives

Published on 2/3/2017

Polyamides (Nylon) comprise the largest family of engineering plastics (by volume) with a very wide range of applications. The article briefly summarizes the...[Continue Reading](#)

Cloud Computing Tech

Published on 2/1/2017

Industrial sector in general and process automation plants in specific, could adopt cloud technology and data analysis to solve business challenges and utilize...[Continue Reading](#)

Remarks

Published by Blockdale, Chemical Industry Digest, is a pioneer, in introducing first hand industrial journalism, designed to inform and update practicing management and engineering professionals in the Chemical Industry.
