

Home Page

The screenshot shows the homepage of the Renewable Energy Directory. At the top, there is a search bar with a 'Search' button. Below the search bar, the title 'RENEWABLE ENERGY DIRECTORY' is displayed in large, bold letters, followed by the subtitle 'A visual and interactive directory of renewable energy technology.' The navigation menu includes 'DIRECTORY', 'EVENTS', and 'GREEN JOBS'. There are also social media icons for Facebook and RSS. Below the navigation, there are filters for 'Solar Energy', 'Clean Energy', and 'Green Energy'. The main content area features a world map with several orange circles indicating the number of entries in different regions: 18 in the USA, 13 in Europe, 7 in Asia, and 8 in Africa. To the right of the map is a 'SEARCH' section with a 'Search for:' dropdown menu, a text input field for keywords, and a 'Search near:' dropdown menu for selecting a region. Below the search section is an 'INDEX' section listing categories and their counts: 'Alternative Energy (78)', 'Alternative Fuels (16)', and 'Battery Technology (4)'. The map also includes a 'Map Satellite' toggle and a 'Google' logo.

Logo

The logo for the Renewable Energy Directory consists of the title 'RENEWABLE ENERGY DIRECTORY' in large, bold, black capital letters. Below the title is the subtitle 'A visual and interactive directory of renewable energy technology.' in a smaller, regular font. The entire logo is enclosed in a thin blue border.

**Publisher** Alternative Energy News

**Brief History** Subject to research

**Scope and Coverage** The Renewable Energy Directory provides information on the websites of a variety of energy resources including their maps and locations. The events page can also covers information on the energy event or conferences.

**Kind of Information** The directory provides information on different kinds of categories like alternative energy, alternative fuel, electric bikes, electric cars, fuel cells, free energy, global warming, human power, wind energy, wave power etc. Numbers of websites are given in bracket under each category and each category can be identified with their icons. Some categories are given below as examples :

List of websites are provided including their URL, short description, category/type, location and print screen of home pages. As for example, ‘**Tidal energy**’ shows the list of the related websites with their description, hyperlinks and maps.

**PESWIKI | GREEN STEAM ENGINE**

[http://peswiki.com/index.php/Directory:Green\\_Steam\\_Engine](http://peswiki.com/index.php/Directory:Green_Steam_Engine)

Designed for practical applications; is said to be extremely efficient, economical and easy to build. Provides an efficient means of converting reciprocating movement into rotary movement, simplifying the piston engine.

Ephraim, UT 84627, United States

 **Steam Power**

This directory is a part of AE News. Thus, alternative energy (AE) headlines can be seen with date and description under ‘news’ column. An example is shown below :

**FOR FIRST TIME EVER, X-RAY IMAGING CAPTURES MATERIAL DEFECT PROCESS**

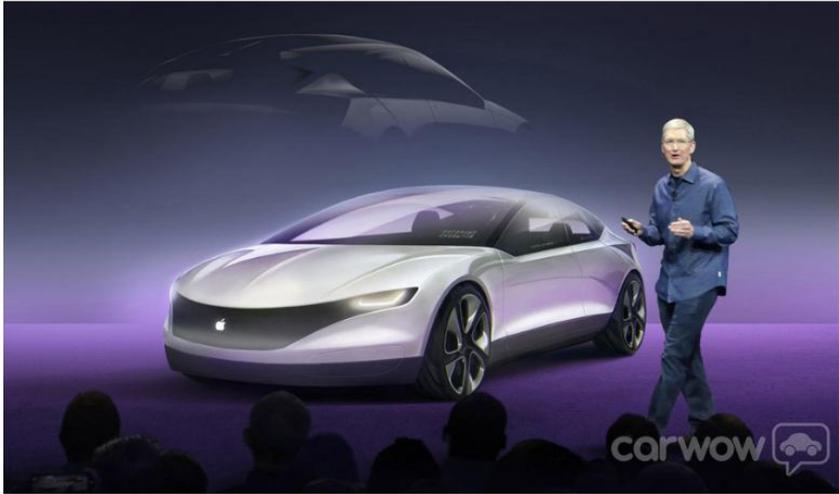

**Jan 16, 2017:** A new approach has been uncovered to detail the formation of material defects at the atomic scale and in near-real time, an important step that could assist in engineering better and stronger new materials.

Events can be submitted by filling a format which needs information on the date, time and description etc. of an event.

Recent posts are given with respective photos and description. One post is shown below as example :

**APPLE ELECTRIC CAR: CONCEPT PHOTOS** MAR 30

Posted in [Electric Cars](#) | [Future Technology](#) | [Transportation](#)

Recent rumours that suggest Apple may be working on an electric car have inspired the website **carwow** to produce some concept images of what the vehicle may look like. Speculation that Apple may be in talks to purchase electric vehicle manufacturer **Tesla Motors** inspired the illustrations to have a similar resemblance.

### ***Special Features***

- RSS Feed is available.
- Directory of each category are displayed in map.
- Hyperlinks of related featured websites are attached also. Those are **NDC technologies, Telsa Motors** etc.
- Searching can be done through categories and regions.
- Newsletters are sent to the emails of subscribed users.

### ***Arrangement Pattern***

Categories are arranged alphabetically in index as shown below :

### ***Remarks***

It is a relevant tool to know about the informative websites and resources throughout the world. As the URL are provided, thus the websites can be viewed in depth and other related information on that category of resources can also be known.

### ***Comparable Tools***

- Energy Directory | EnergyWorld Magazine  
( [www.energyworldmag.com/energy-directory/](http://www.energyworldmag.com/energy-directory/) )

### ***Date of Access***

17<sup>th</sup> January' 2017.
