Brief History	The Animal Facts Encyclopedia is created in 2011 by Jenise Alongi.		
Scope and Coverage	In the home page the article can be found under the heading "Animals Around the World", "Animal Family Tree", "Animal Fun Stuff", "A to Z". Through this encyclopedia, one can get articles about African Animals, Australian animals, ocean animals, rainforest and desert animals. The encyclopedia give information on baby animals, Africa's most popular animals. The heading "Animal Family Tree" provides articles under "Big Cat Facts", "Bear Facts", "Great Apes Facts".		

*Kind of Information* The article in this encyclopedia provides mainly different key facts on animals around the world. The article starts with introduction about the particular animal, physical descriptions, some amazing facts about the animal, their reproduction behavior and suitable atmosphere for their living, etc. and many more. The important key facts about the animals are also provided in a table form. As for example an article on Elephant Fact provides following table of facts:

MALE	FEMALE	YOUNG	SOCIAL UNIT
bull	cow	calf	herd
HOME	HABITAT	LIFESPAN	FAVORITE FOOD
