	philosophical doctrines like Epistemology, Metaphysics, Ethics, Logic, etc. Huge number of philosophers' biographies is also included.
Kind of Information	The philosophical topics in this encyclopedia are treated very well with long entry on that particular topic, with image where necessary. The article includes many hyperlinked cross reference words. An article on "Materialism" provides introduction on that topic, history and types of Materialism. Another topic on "Logical Positivism" provides short introduction, history, criticism of logical positivism. The biographical article like an article on Aristotle starts with introduction and then provides the life history and detailed information about the works of Aristotle.
Special Features	 The encyclopedia includes glossary of terms. It also includes famous coats of many philosophers.
	The encyclopedia includes an option "The timeline of Western Philosophy" which is created as one long image to give an idea of the relative scale and the clusters of activity in philosophical thought. The names are clickable links which redirect the encyclopedic articles.

Arrangement Pattern The articles are arranged a

The articles are arranged alphabetically. But the main categories under "By Branch/Doctrine" are arranged topic wise.
