Nations Online Mad Astronomy Department

*Brief History*

The Nations Online Project started in early 1998 as a reference work for **netscout.net**. The idea was to create an online guide to cultures and nations around the world. At that time, there was not as much information available about foreign countries online as there is today, but the idea was that it should be possible to find at

least **one** entry for every Top Level Domain (country code for the Internet) on the Web.

### *Scope and Coverage*

Nations Online Project is a pioneer in providing information about countries. It is made to improve cross-cultural understanding and global awareness, dedicated to art, culture, history, and the uniqueness of a nation and its people. This covers information of earth, continents, and countries. Categories of this site includes: Maps, world population, languages, cities of the world, international codes, flags, international currencies, airlines & airports, news, famous monuments, places of worship or power etc.

### *Kind of Information*

This site provides information on continents, countries and cities. Information on continents includes area, population, highest point, largest lake, and longest river, list of countries' status, population and capital cities. Name of countries and cities are hyperlinked.

Entries on country include background information, border countries, different official sites, administrative unit, images, high courts and jurisdiction, statistics of population, maps, ISO country code, calling code, area, location, climate, people, natural resources, agriculture products, industries etc.
