### ***Brief History***

The roots of the current *Political Handbook of the World* extend back to *A Political Handbook of Europe: 1927*, published by the Council of Foreign Relations. A year later the European volume was expanded into *A Political Handbook of the World: 1928* and published for the Council by Harvard University Press and Yale University Press. At the time, the Council sought to challenge isolationist sentiments in the U.S. government and the populace as a whole, believing that a more international outlook was needed to best serve long-term U.S. interests. One goal of the original *Handbook* was to combat what the anti-isolationists believed was an information gap in the United States about the internal affairs of foreign countries. The 1928 *Handbook* quickly established its reputation as a standard reference source in government, media, and business circles by presenting strictly informational work designed to permit readers to make their own informed judgments on overseas developments. This same unbiased editorial tradition continues today under the editorial direction of CQ Press. From 1929 through 1962, the *Handbook* was published as *A Political Handbook of the World*. After the introduction of full color maps, the *Handbook* was published as *Political Handbook and Atlas of the World* from 1963 to 1970. The *Handbook* was then updated with annual supplements titled *The World This Year* in 1971, 1972, and 1973. The *Handbook* then returned to *Political Handbook of the World*.
