**Publisher**

Pond5 Inc.

**Brief History**

Pond5 was founded in 2006 as a way for video producers to license content to third parties. It subsequently expanded into other media types, including photos, music, sound effects, 3D models, and Adobe After Effects templates.

## **Scope and Coverage**

Pond5 is a New York based online marketplace for royalty-free media. The company licenses stock footage, stock music, stock photography, sound effects, after effects, images and 3-D models. Pond5 is reported to have the world's largest collection of stock footage.

## **Kind of Information**

Pond5 has a gigantic collection of photos, illustrations, vector drawings and these are useable in different creative project.

The company originally focused on selling video clips, but began to expand into other asset types following its 2013 acquisition of Pixmac, a stock photography site based in the Czech Republic. The acquisition added Pixmac's 6,000+ photographers and support for 17 languages to the Pond5 marketplace.
