Thinkstock is the only subscription that offers images from over 40 unique collections, some of which are the most recognizable and highest quality brands in the world. Some of these are –

### *Special Features*

- ❖ **Use any image at any size without affecting the price:** With a subscription, users can download and use any image at any file size without affecting the price.

- ❖ **Pay less for the same great pictures that cost hundreds of dollars individually:** many of the images available on Thinkstock can be licensed individually on other websites.

For example, this picture would cost hundreds of dollars for a medium or high-resolution file if purchased individually. But on Thinkstock, this picture is included as part of the subscription and is simply counted as part of users specified download limit.

- ❖ **It provides access to a growing collection of vector illustrations:** In addition to millions of photos from iStock, Getty Images and more, Thinkstock also offers a growing collection of vector art and stock illustrations.

- ❖ They also provide benefits to their exclusive subscribers. Thinkstock 1-year subscriptions include 10% discounts on additional purchases from Getty Images and iStock.

**Arrangement Pattern**

All the images are arranged categorically, and these categories are arranged alphabetically.

**Top image categories**

- Animals
- Architecture & Buildings
- Backgrounds
- Business
- Concepts & Ideas
- Education
- Entertainment
- Food & Drink
- Health & Beauty
- Holidays & Celebrations
- Illustrations

- Objects
- People & Lifestyle
- Science & Medicine
- Sports
- Technology
- Travel
- Vectors
- Vintage

**Remarks**

Thinkstock is the only subscription that combines millions of photos, vector art and illustrations selected from Getty Images, iStock and worldwide image partners. They add fresh new images selected every day from Getty Images, iStock and worldwide image partners. So no matter which plan the users choose, subscription or image packs - users can access to a constant supply of new content for all their projects.
