Publisher

International Association of Cyber Psychology, Training, and Rehabilitation (iACToR).

Brief History

Annual Review of Cyber Therapy and Telemedicine (ARCTT – ISSN: 1554-8716) is one of the official journals of the International Association of Cyber Psychology, Training, and Rehabilitation (iACToR). ARGG continues its long tradition of professionalism under the editorship of a leading expert in the field of gerontology, Toni C. Antonucci. Over the past 35 years, ARGG has brought together internationally recognized experts in the fields of gerontology and geriatrics, and

continues to deliver the highest standards of content and authoritative reviews of research for students, researchers, and clinicians.

Scope and Coverage

ARCTT is a peer-reviewed all-purpose journal covering a wide variety of topics of interest to the mental health, neuroscience, and rehabilitation communities. The mission of ARCTT is to provide systematic, periodic examinations of scholarly advances in the field of Cyber Therapy and Telemedicine through original investigations in the telemedicine and cyber therapy areas, novel experimental clinical studies, and critical authoritative reviews.

Kind of Information

Through ARCTT, the researcher or the users can read the volume (full text) and download it (PDF) from SCRIBD, ISSUU. Even They can order the paper version for University/Department Library & directly on Amazon.com. Each volume of ARCTT holds editors introduction, critical review, evaluation studies, original research, & critical observation.
